BarProof™

Barcode Decoder & Verifier

BarProof is the only barcode verification and decoder tool available for PDF files that provides grading, bar width reduction and magnification measurements, guaranteeing scannable barcodes at the checkout counter.

BarProof automatically locates all barcodes on a label, carton or press sheet, and grades each barcode according to CEN/ANSI/ISO standards.

Benefits

- > Bar width reduction measurement
- > Magnification measurement
- > Grades each barcode according to CEN/ANSI/ISO standards
- > Verifies and decodes linear 1D & 2D barcodes
- > Color coded reporting
- > Easily identifies pass/fail barcodes
- > 21 CFR Part 11 / Annex 11 compliant
- > Validation available
- > Integrates with Artproof & ScanTVS
